

Trained on movies subtitles

Human: what is the purpose of living?

Machine: to live forever.

Human: what is the purpose of existence?

Machine: to find out what happens when we get to the planet earth.

Human: where are you now?

Machine: i'm in the middle of nowhere.

It works! It has some problems though:

- Unrealistic topics
- Too dramatic responses

Oriol Vinyals, Quoc Le. A Neural Conversational Model, 2015.
