Word alignment task

Given a corpus of **(e, f)** sentence pairs:

- English, source: $e = (e_1, e_2, \ldots e_I)$
- Foreign, target: $f = (f_1, f_2, \ldots f_J)$

Predict:

- Alignments **a** between **e** and **f**:

e: The appetite comes with eating.

a?

f: Аппетит приходит во время еды.
